THE HUB® SOFTWARE RELEASE NOTES

Build No. v7.10.0

Overview

The Hub® software now features Process Match Assistance Advice Notes entered on the CoPilot system for viewing on the Job Audit Report and Job Trends Notes.

New Features

Job Audit Report Advice Notes

The Job Audit Report now displays the date/time, user, type, problem, details, and cycle start index for each Process Match Assistance Advice Note entered on the CoPilot system.

Job Trends Notes Advice Notes

The Job Trends Notes now displays the date/time, user, type, problem, and details for each Process Match Assistance Advice Note entered on the CoPilot system.

Bugs

Username Missing from Job Audit Report Alarm Changes

When viewing the Alarm Changes section of the Job Audit Report, the username of the user who entered an alarm change was missing.

The Hub Unable to Display Trends if Null Initial Cycle Time

When viewing Job Trends, trends would not display for any jobs with an initial null cycle time.
