

## Successful Strategies for Tool Launches

Successful Strategies for Tool Launches provides mold builders and designers with the tools they need to prevent bad part designs and molds from getting into production. Participants learn how to measure the mold, machine, and process capability interactions and determine the best recipe for successful tool launches.

### This Course is Ideal for:

- Designers
- Mold builders
- Tooling engineers
- Advanced processors
- New product launch team

### What We Will Cover:

- How the mold design and build affects quality and total product costs
- How molds can be tried out systematically
- How plastic behaves as it travels through the stages of a process
- Sizing of the mold for the right press
